

INTRODUCING

DISCOVER YOUR DATA AND UNCOVER MORE INSIGHTS

AQ Insight is a new analytics platform for manufacturers that gives you the visibility you need to better understand your company's quoting activity on AQ.

Access your data now at aq-insight.com with your AQ credentials.

Visualize your quoting activity

View key data quickly with an easy-to-use interface like how many products were added to AQ projects and quotes

Use your data to identify trends

Focus on project to quote conversions over a specific date range

See where your most active customers are

Identify which regions are most active for your company at a glance
